Why you should move from single products to an AEC Collection?
Having an integrated set of tools that lets you coordinate work across teams, from design to construction and improve all of your multidisciplinary workflows within your projects.
Using an AEC collection is the best option for you if you are looking to accelerate your team's productivity. The AEC Collection provides designers, engineers, and contractors a set of BIM and CAD tools supported by a cloud-based common data environment that facilitates project delivery from early-stage design through to construction. **Watch Video (1:09)**

Featured MicroCAD Event - Autodesk Dynamo
Dynamo is the programming language that is now built into Revit and Civil 3D. Many of our Architectural customers could benefit from using Dynamo to help improve productivity, consistency and rule verification. MicroCAD can help you train your team on Dynamo or we can deliver purpose-built programs. Learn more at our upcoming Workshop.

Autodesk Dynamo Workshop Recorded (1:00:29)
The video will acquaint attendees with the power of Dynamo and the basic approach to using the tool.

Enscape 3.2 was Released!

Enscape empowers architects and designers to create beautiful visuals in real-time by leveraging their planning data. Enscape integrates seamlessly into your current design program. Watch video (1:58)

Enscape 3.2 Offers Dynamic Real-Time Visualization and Streamlined Workflows for Architects and Designers, it is another step forward in truly integrating the design and visualization workflows into one.

Enscape 3.2 empowers users to bring their ideas to life, better communicate their vision, and streamline their entire design workflow with features such as Dynamic Asset Placement, Batch Panorama, and Panorama Tours. Access over 250 new assets and materials, including the green building collection, and enjoy even higher-quality renderings and realism with ray-traced sun shadows in real-time view.

0% Financing Offer
Great news! The **0% financing offer is back through January 18, 2021.** Financing under this offer applies to new or renewing 3-year subscriptions that are switched from maintenance. Select 3-year purchases for new and renewing product subscriptions, not switched from maintenance, may also be eligible with an approved exception by Autodesk Sales Leadership.

All deals must meet or exceed the minimum required deal size, which is $10,000.

Availability of 0% Financing is subject to customer credit approval, and eligibility criteria as defined by the partnering financial institutions. Annual payment terms between customers and partnering financial institutions are required.

HP Promotion - $650 Cash-in Trade-up offer

HP DesignJet T2600 Large Format Multifunction PostScript® Printer - 36"

- Dual roll option – Cut out unproductive tasks with fully unattended solutions
- Best of class network protection with features like HP Secure Boot and whitelisting
- Collaborate seamlessly with the smart 15.6-inch interface, enabling teams to quickly access shared folders to print, copy, scan, and share from a single device
