

# MicroCAD Insider

**M** MICROCAD  
TRAINING & CONSULTING

Hi,

Happy Memorial Day! We must take a moment out of our busy lives to remember our lost Military members. Our offices will be closed Monday.

Need help with something? Just ask our team!

Call 888-355-0081, or email us today.

Sincerely,

The MicroCAD Team

### Grading Optimization for Civil 3D

[Grading Optimization](#) is an AI-based program that takes your design elements building pads, drainage lines, etc. adds your design constraints, and produces a best-fit finished-ground surface model with feature lines. To access the Grading Optimization ribbon, go to the Analyze tab and then find the Grading Optimization panel at right end.

## SPECIAL TRAINING OFFER

Register for two training classes and receive 30% OFF. If you took a class with us already this year, take another one and get 30% OFF.

Send an email to [jsimth@microcad3d.com](mailto:jsimth@microcad3d.com) and learn how to benefit from this offer.

## HIRE UKRAINIAN DESIGNERS

### Let's Hire Ukrainian Designers!

Nearly all design professionals in the Ukraine are currently unemployed. A large number of Ukrainian design professionals have been displaced from their homes and are now living in dangerous circumstances.

Architecture and design firms across the United States can help by giving remote, freelance work to Ukrainian designers in the fields of architecture urbanism, landscaping, and visualization, all through **Hire Ukrainian Designers**.

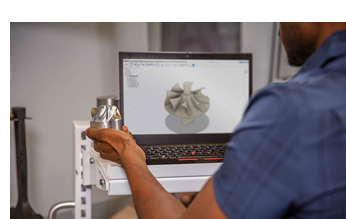

**Hire Ukrainian Designers** is an initiative led by a team of USA-based architects including PFA Architects. It aims to help Ukrainian design professionals find work with US firms. The project is based on the success of a grassroots initiative organized by the Houston-based landscape firm SWA Group.

To aid the hiring of Ukrainian design professionals, our volunteers provide applicant introductions, pre-screening, skill-set vetting, contract templates, and assistance with remote work problems and language hurdles.

Your firm's hiring pledge can go a long way toward assisting and engaging the livelihood of Ukrainian design professionals during this extremely difficult time. Join PFA Architects who have already hired experts from the list of applicants.
